

Inspired by

SEE the light.

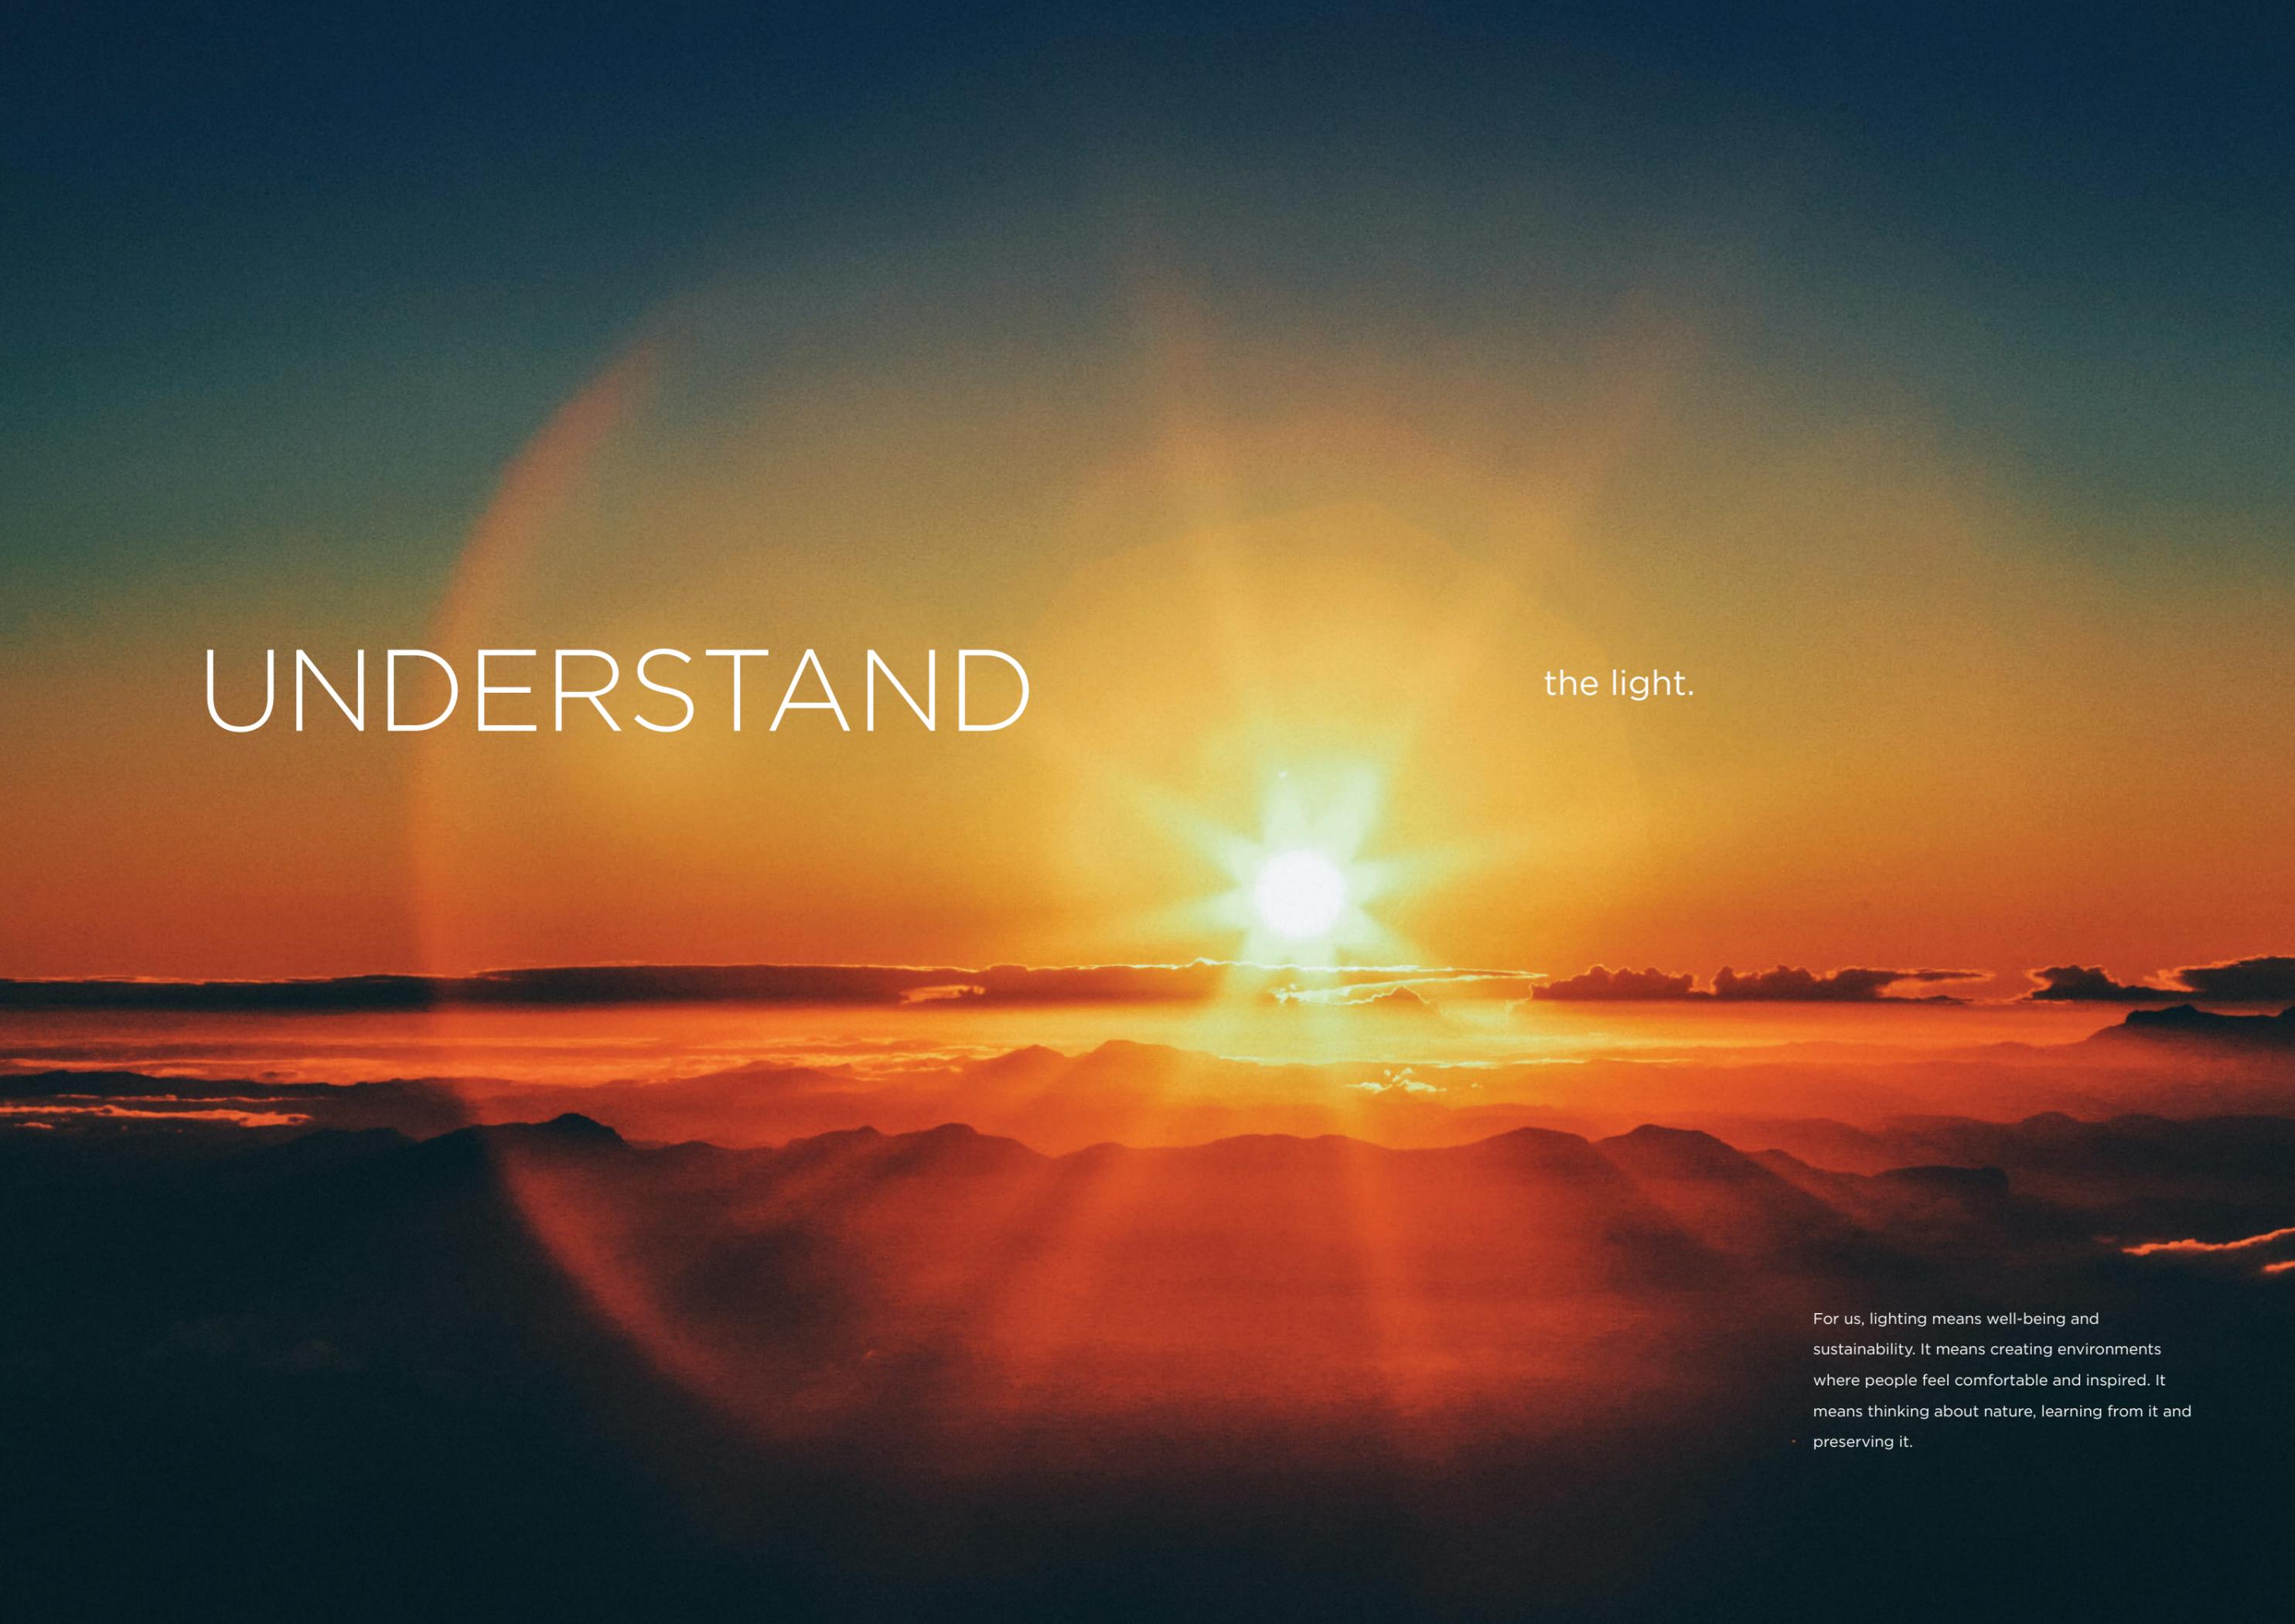

It all began with a small ray of light. Packed with an enormous amount of energy, the stars were forged. Then, the whole universe with its infinite constellations. Sunlight gave birth to life and enlightened even the darkest places on earth.

# FEEL

the light.

We imitate that natural phenomenon by bringing light to an ambient in the smartest way possible. Inspiring you to create new ideas, concepts, life.

A photograph of a sunset over a mountain range. The sun is a bright, glowing orb in the center of the horizon, casting a warm, golden light across the sky and the landscape. The sky transitions from a deep blue at the top to a vibrant orange and yellow near the horizon. The mountains below are silhouetted against the bright light, creating a layered effect. The word "UNDERSTAND" is written in a large, white, sans-serif font on the left side of the image.

# UNDERSTAND

the light.

For us, lighting means well-being and sustainability. It means creating environments where people feel comfortable and inspired. It means thinking about nature, learning from it and preserving it.

# European manufacturer of commercial, architectural and industrial LED luminaires

Located on the border between Slovenia and Italy, LED Luks combines the best from both cultures: Slovenia's innovative business spirit and diligence merged with the Italian tradition in industrial manufacturing and design expertise. The synergies of both support LED Luks customer-focused philosophy as well as the company's commitment to providing high-quality products.

LED Luks has a number of standard product lines: LED luminaires for offices, educational, public and similar buildings, plus industrial and sports plants. The company is also known for custom-made solutions, which are developed in close dialogue with clients.

# In-house engineering & development

With a competent development team, which is curious about new technologies, trends and materials, our products meet the latest market demands, functionalities and levels of quality. Having the know-how and full control over product engineering, design and development, we can also accommodate specific project requirements and customisation.

From product engineering and design to prototyping and manufacturing state-of-the-art LED luminaires, we select only the best components and latest technology to both satisfy our clients' needs and guarantee long lasting quality, as well as generate steady growth.

Carefully selected LEDs, PCB boards of our own design and close collaboration with many testing institutes ensure that the luminaires feature excellent functionality and a high standard of reliability when it comes to operation and colour consistency.

# Focused on high-quality

The company is undergoing a transformation of its processes towards a digital future resulting in higher value delivered to customers and improved operational efficiency. We are changing the logic of designing our products, giving our customers the freedom to design the products by themselves.

# Using digitalization to achieve a better user experience

### In-house manufacturing

By consistently investing in new manufacturing machines, implementing advanced, digitalized processes and working with a dedicated production team, we have the ability and agility to react to market and customer demands quickly and flexibly. It gives us full control over product quality and enables the rapid testing of prototypes.

### Responsiveness and customers oriented approach

### ISO certification

**ISO 9001: 2015 certified**  
The certificate demonstrates that our management system, internal processes and project approach are quality guaranteed. The standardized processes help us to ensure and maintain our products and services at the highest standards.

**ISO 14001:2015 certified**  
Committed to our environmental responsibilities, the intended outcomes of an environment management system include sustainability through digitalization, use of sustainable materials and packaging, enhancement of environmental performance and identification and management of activities that have an environmental impact.

### ENEC certificate

Through close collaboration with our third-party certifying partner, we stand as a high-quality European brand for electrical products that demonstrates compliance with European safety standards and ensures maintenance of quality production control.

### Certified laboratory testing

## Long-lasting light quality and colour consistency

From the design of LED circuit boards to the selection of materials, product engineering and the assembly process, we aim to ensure high-quality, durability and high performance across the entire range of lighting products. By partnering with the best LED suppliers in the world, we ensure colour consistency among our fixtures and a barely visible colour difference between production runs and among fixtures installed at different times.

- MacAdam Step 3
- L80 B20 at 100.000h, Ta=25°C
- 5-year warranty

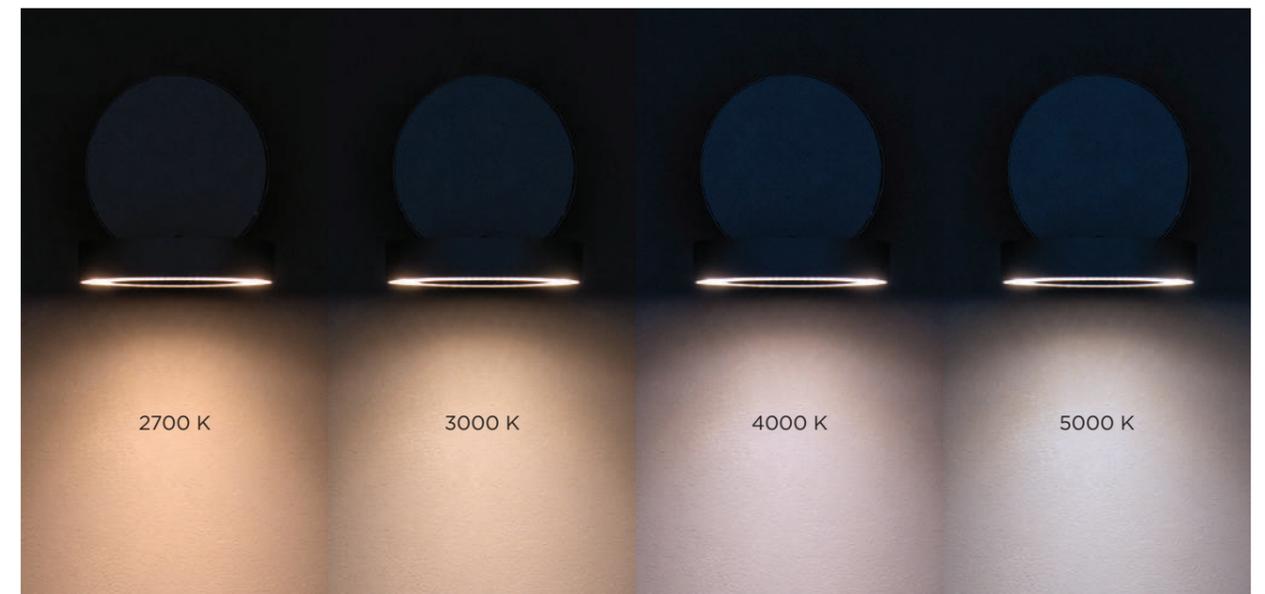

## Extensive customization options

Our standard portfolio offers millions of product variations, customizable according to lengths, shapes, optics and mounting type, colour options, control management possibilities and other adaptations. But that's not all. We can work with you to develop a lighting solution specifically tailored to the architectural and aesthetic needs of your project.

- Many optics options for the desired light distribution
- Colour temperature options
- CRI > 80 / CRI > 90 / CRI > 95
- Control management possibilities

Performance driven.

Accurate reproduction of colour and texture of objects.

Always in pace with the latest technology.

## Spectra Technology

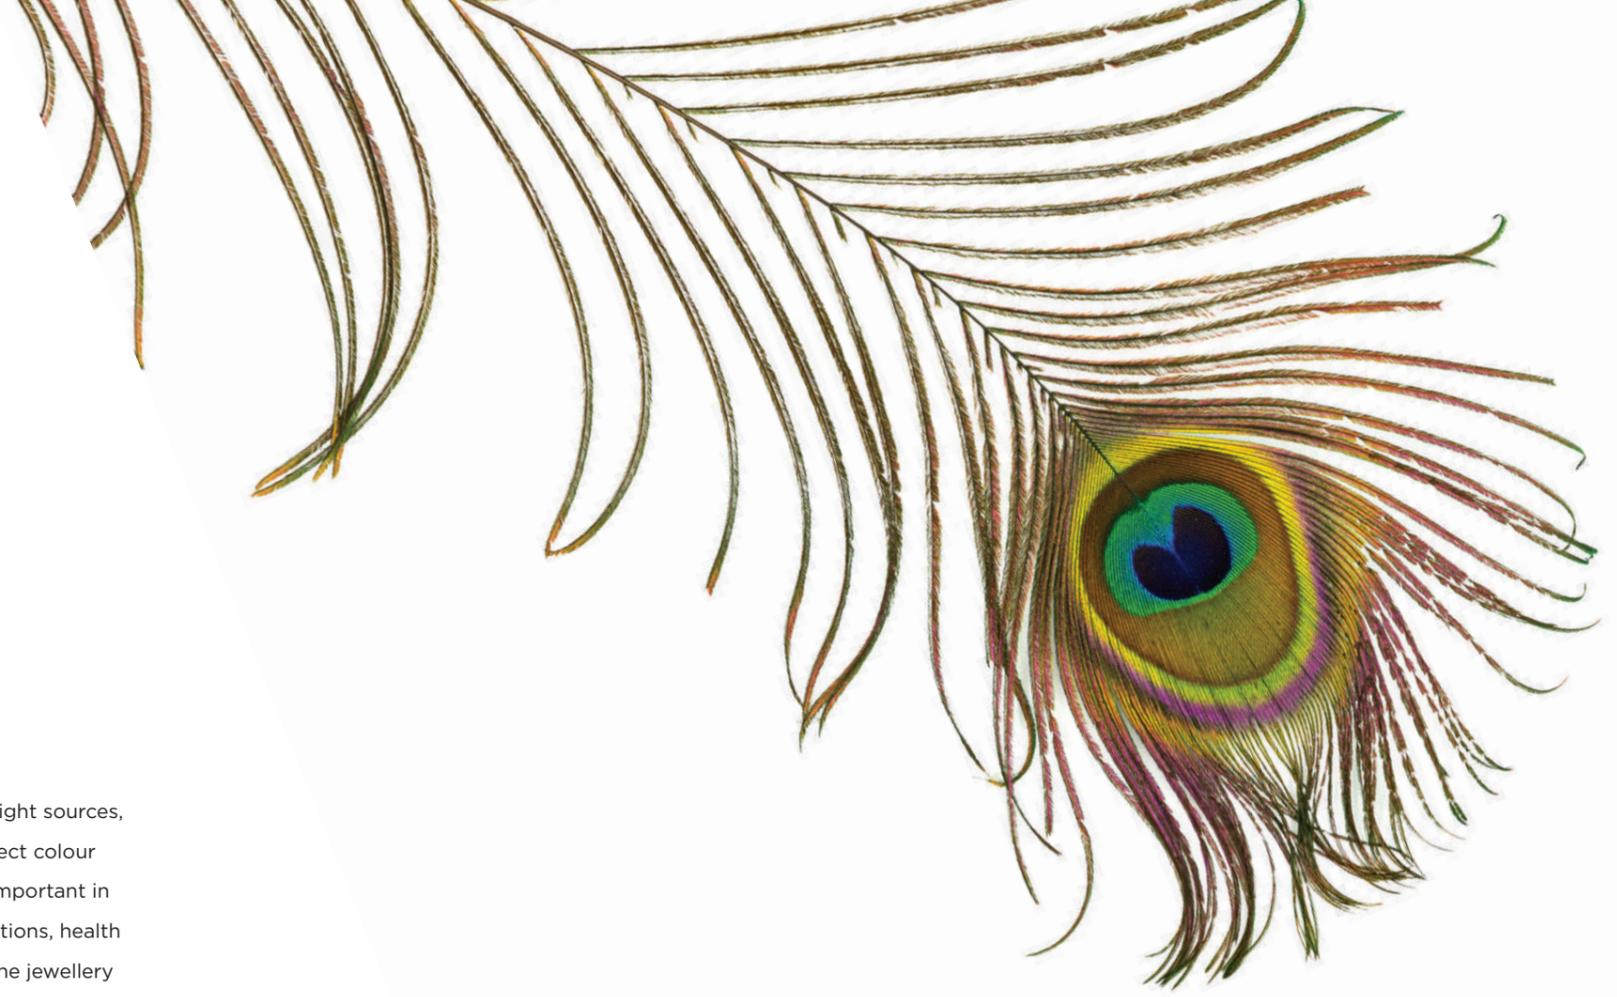

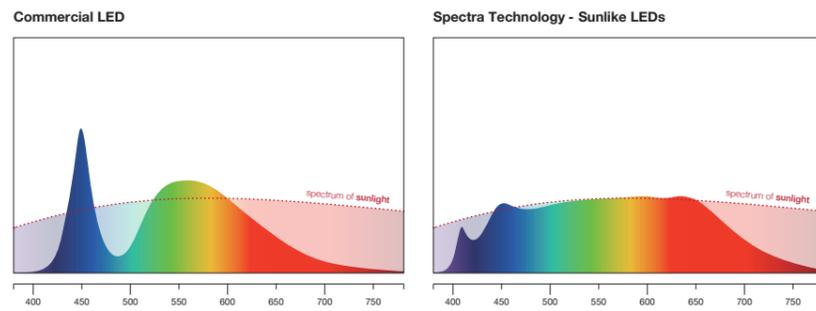

Light up your surrounding just like the sun does.

Delivering a natural spectrum of sunlight and minimizing the defects caused by artificial light sources, Spectra luminaires accurately represent the colour and texture of objects. With their perfect colour reproduction (CRI > 95), objects appear just as they would in sunlight. This is especially important in environments where the exact colour of the product needs to be shown, such as in exhibitions, health facilities, fine art galleries, fashion departments, graphic design studios, printing stores, fine jewellery stores and more. Spectra luminaires match the human biorhythm and contribute to a better and healthier environment.

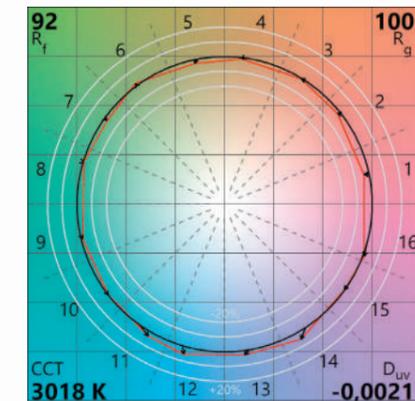

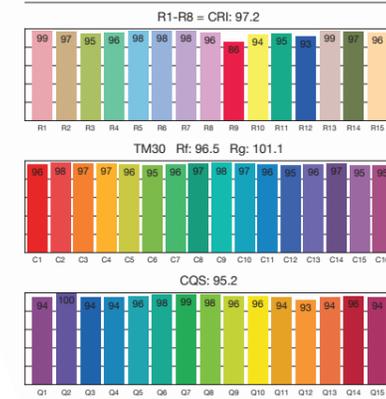

Luminaires under Spectra brand feature SunLike Series natural spectrum LEDs technology, co-developed by Seoul Semiconductor and Toshiba Materials with TRI-R phosphor technology.

### Sunlike Tunable White

- CRI > 95
- 2700 - 5000 K

CRI (CQS) details

Excellent color rendering property.

## Tunable White Technology

Replicate natural light and dark cycles inside homes and offices.

It has been proven that dynamic lighting not only has a positive impact on the human biorhythm, health and sleeping quality, but also positively affects effectiveness and concentration at work and school.

- CRI > 80 / 90
- 2700 - 5000 K

## Enabling interactivity

Thanks to lighting management systems you can adjust the lighting to suit your personal preferences or task needs. Light control not only has a positive impact on your well-being at work, motivation and productivity, but also significantly increases energy and costs savings. There are various options to control the lighting in a room, being it a daylight- or presence-dependent sensor or preprogrammed options. You can choose a solution for your particular working station or a full lighting control management system for the entire room or building. Our luminaires are suitable for several options from intelligent lighting solutions providers, like Helvar (Active+, iDIM, etc.) and Casambi, enabling you to adapt to the level of light control you require.

### Options:

- A standalone presence/ daylight sensor mounted on a luminaire, available with an on/off function or with a dimmable function. Ideal for small offices.
- A system presence/ daylight sensor mounted on a ceiling or on a luminaire that enables light control from small to large rooms or entire buildings, available as an on/off function or with a dimmable function. Additionally, preprogrammed modes can be manually selected for use in situations like a classroom, single office, open-plan office, corridor, meeting room or storage area.
- A remote controller
- A pull switch integrated in the luminaire

Control the light by using the application on your smartphone.

## Wireless lighting control

## Customization is the new standard

Finding the right product for your project has never been so easy.

You can now fully customize our linear lighting profiles and create a luminaire designed specifically for your project's needs. The luminaires can be precisely adapted to 1mm in length and to 1 degree in angle.

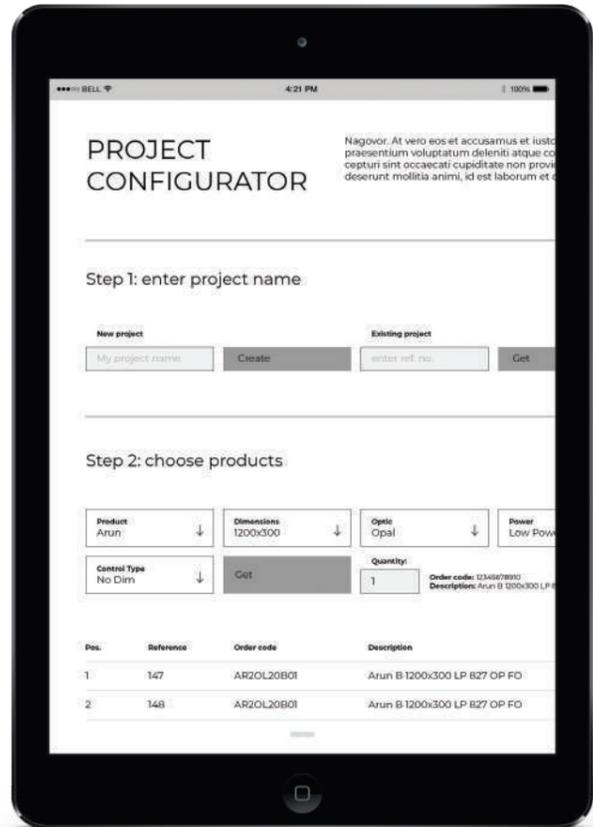

The beauty of the configurator is that it can create and adjust 3D drawings in real time according to your selected parameters. With the 3D viewer, you can re-position the luminaire, get a closer look from different angles and change individual intersections. And that's not all. The configurator is synchronized with our augmented reality (AR) app (iOS and Android), with which you can view the luminaire directly in your interior.

## Custom project configurator

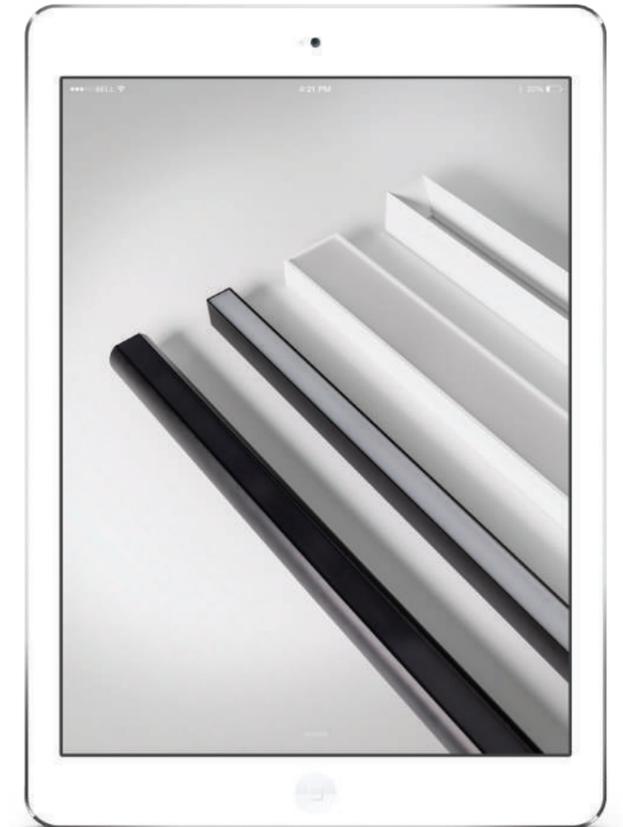

A configuration tool for architects, lighting designers and all lighting specialists.

- What you get?**
- a customized luminaire tailored to your needs
  - 3D models to work with
  - detailed technical documentation (dxf, ldt files, etc.)
  - project quote
  - mounting position drawings
  - AR APP to position the luminaire in your interior

## Project configurator

- What you get?**
- standard product selection all in one place
  - all technical documentation, project list and quote sent to your email address
  - possibility to update the project anytime using the project reference number

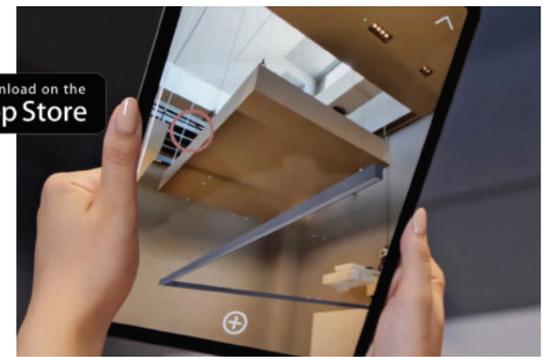

## Product configurator

- What you get?**
- product code, lumen and power output
  - technical documentation

## Augmented reality (AR) app

Position the luminaire created with Custom project configurator in your interior

# CAMALEO

BY BOYAN CEGLAR

INNOVATION  
FLEXIBILITY  
FREEDOM

BY  
OLEG  
COSNEANU

DRY

### MAKE IT YOUR WAY

Like a chameleon changing its skin, Camaleo changes its form, texture and material structure. Whenever you want something new, there's no need to change the whole luminaire, but just its 'skin' - by sliding the old cover out and placing the new cover in. Simple as that.

Forms

Camaleo offers endless opportunities for an aesthetic transformation. Combine a straight-edge profile with a wooden finish and then change it to a bended profile with a texture-based structure. Different finishes, like colour combinations, textile, wood, stone and other materials are available to switch up your luminaire and adapt it to your interior.

Additionally, you can also choose a different colour housing - black, white and grey being the standard.

#### Optics:

Opal, prismatic, modular 30°/60°, asymmetric, nero or office optic available

DRY is a family of luminaires with an eye-catching effect. The variety in shape and the combination of an illuminated rod with an optional panel make DRY a very decorative and a functional luminaire. Its versatility allows you to adapt it for various projects and to use the same product family throughout your interior, easily adopting it in every office, hospitality or residential project. Its specific shape delivers a double light effect.

#### ILLUMINATED ROD

The minimalistic basic option is available as a rotating illuminated aluminium rod, making it possible to direct the light to your chosen surface and create atmospheric scenes.

#### DECORATIVE PANEL

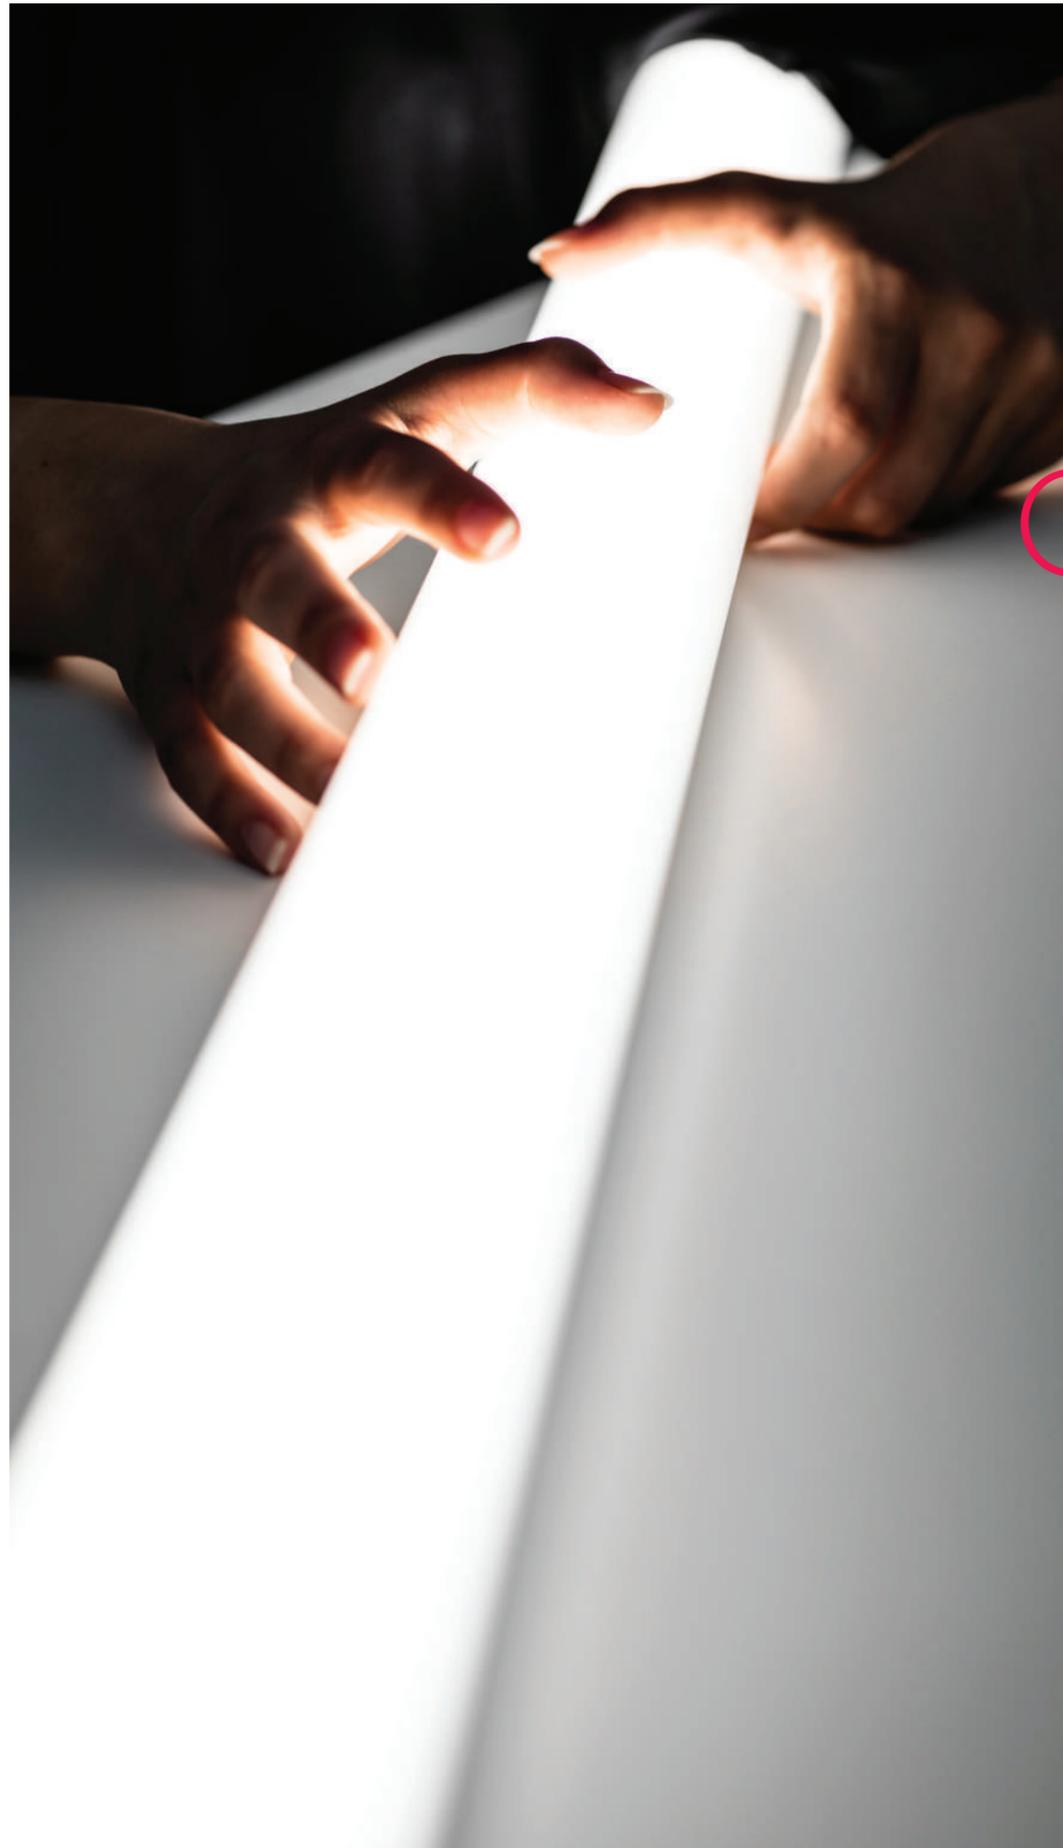

The upgraded option uses a decorative panel for an additional hidden light spot. You can choose from a variety of materials and covers, creating a sophisticated, but bold luminaire.

DRY is available in many installation options, like a pendant luminaire, stand-alone floor lamp or wall luminaire.

# KALA SHAPES

KALA comes in different forms like rectangular, circular and in triangle as a standard. Additionally, its adaptable design enables the extension to other shapes and application. With a 100 mm high profile and an even illuminated surface, KALA Shape is a universal, but a bold luminaire as well.

# ORA TUBE 60

ORA Tube 60 is an extension to ORA family. Not just as a new member of the group, but also as a new possibility to connect it to the standard ORA 60 and form a unique application. Its specialty is the completely illuminated body, which makes the luminaire appearing like a tube. Combining coloured end-caps and coloured cables, the luminaire gets playful and a creative addition to your interior. Applications: linear pendant, ceiling and wall-mounted or in a hexagonal shape.

Next extension

# TUBE MINI

A ray of light, 17 mm thin.

## ILO 50 Track

A new mounting option for the most versatile product of our range. Quick and easy to install, ILO 50 Track is suitable for global track systems.

## ORA 60

The curved-edge profile now comes also in a thinner version with a diameter of 60mm. Together with the new ILO Tube 60, you can now make longer system combinations, connecting the standard ORA 60 (aluminium profile) with the ORA Tube 60 (illuminated housing). Special shapes, like hexagon, octagon and other forms, are also possible.

## PLAIN

The elegant product from our family range is now available in different lengths, starting from 752mm and up to 2852mm in single piece. Separate units can be also connected together to form longer systems. The product was additionally extended with various optic types, which can be used according to your preferences and to your needs. You can choose between opal, prismatic, modular wide/narrow and office optic.

## KYRA

Popular in offices and school applications, KYRA is now available also as a system to form longer uninterrupted light-lines. Available as a recessed, ceiling or pendant mounting type.

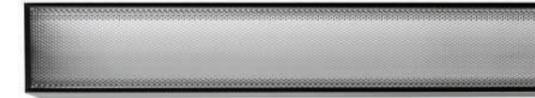

## Office optic

The purpose of the new optic is to provide the best visual comfort for office environments that include workstations, reception desks, conference rooms and other similar applications. Its specifically designed precise lenses combined with a reflector body deliver high performance, low UGR and high-quality illumination.

- UGR<19 / UGR<16
- Suitable for VDU workstations according to EN 12464-1: up to 3300 lm/m with <math><3000\text{ cd/m}^2</math> for a beam angle of >math>65^\circ</math>
- All standard light colour temperatures and CRI variations are available for the ILO family

For ILO 50 and ORA 80 range

## U-PR prismatic optic

Its unique glare control performance is achieved through a combination of extruded profile geometries and precise microstructures embossed directly into the optic cover. The new prismatic cover stands out with its transparent appearance of the precision microstructure, as well as with the resulting highest possible efficiency and photometric functionality for glare-reduction-critical applications. The complex approach of inserting microstructured products (foils/sheets) for light control has now been replaced by a single product. Based on Jungbecker hot embossing production technology

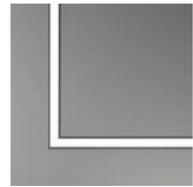

For ILO 50, ILO 70 and ORA 80 range

## Dropped opal and dropped prismatic diffusor (10mm)

An alternative optic for ILO 70, delivering ambience atmosphere and maintaining even illuminance distribution across the panel and on sides of the diffuser.

# PROFILES

Single luminaires and light-line systems

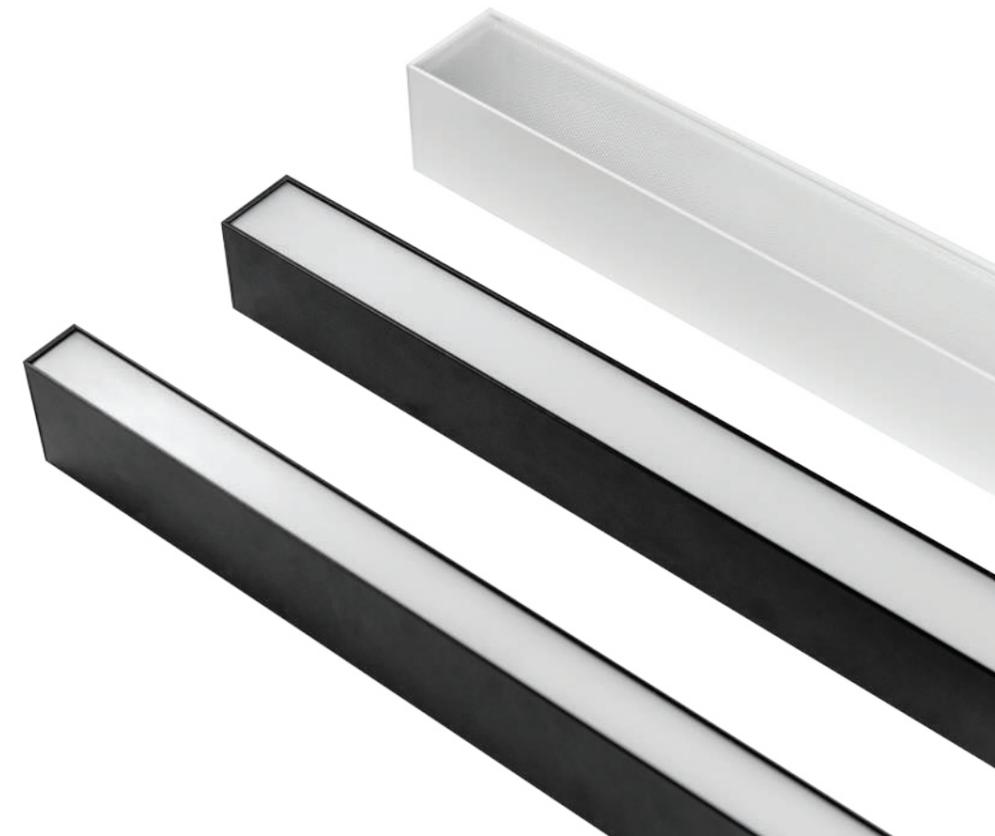

Continuous  
light-line  
system.

# ILO

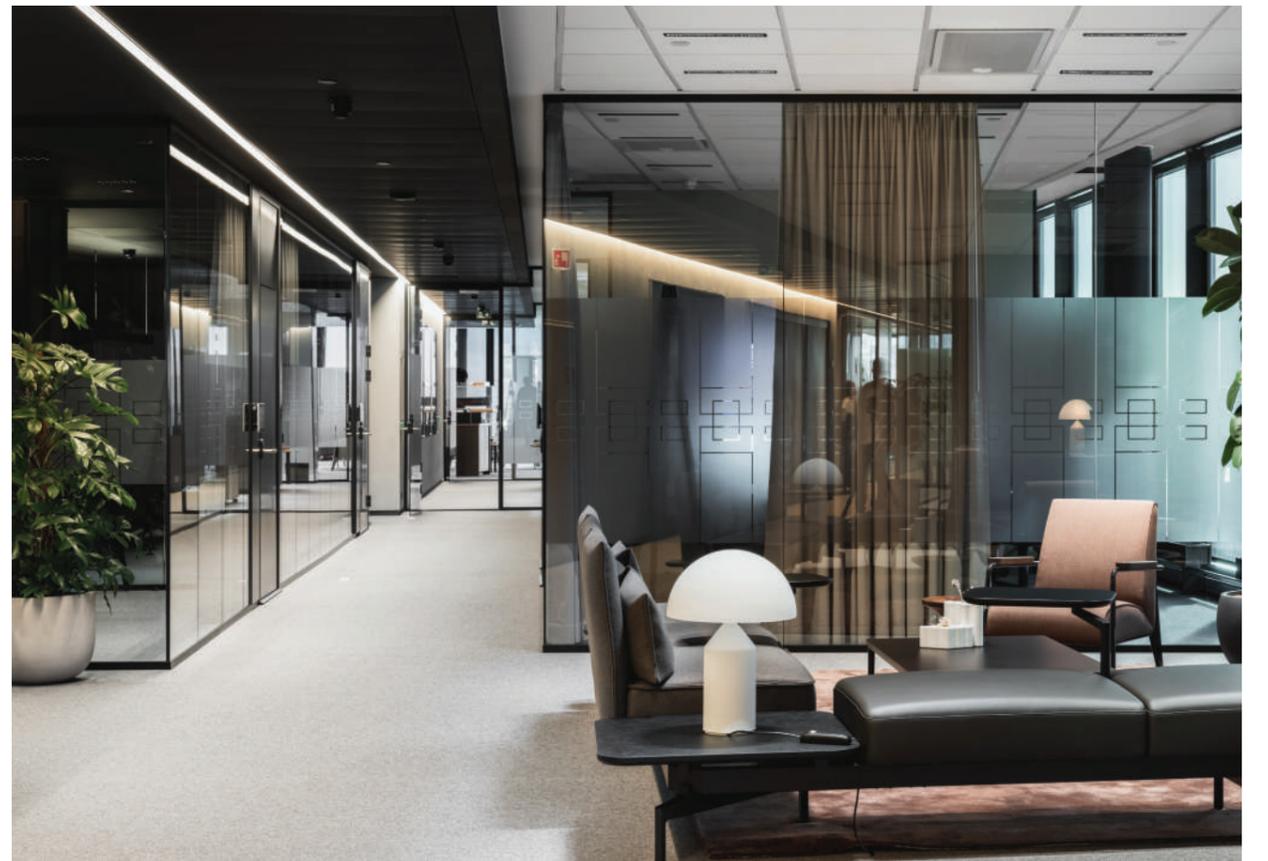

One product,  
multiple applications.

The ILO luminaire is one of the most versatile profile solutions on the market. Designed for projects that demand a high quality lighting system and high visual comfort, it offers a vast selection of features, materials and performance features to choose from. With its modular design, the ILO can be used as an individual fixture or as a combination of luminaires connected together in continuous lines.

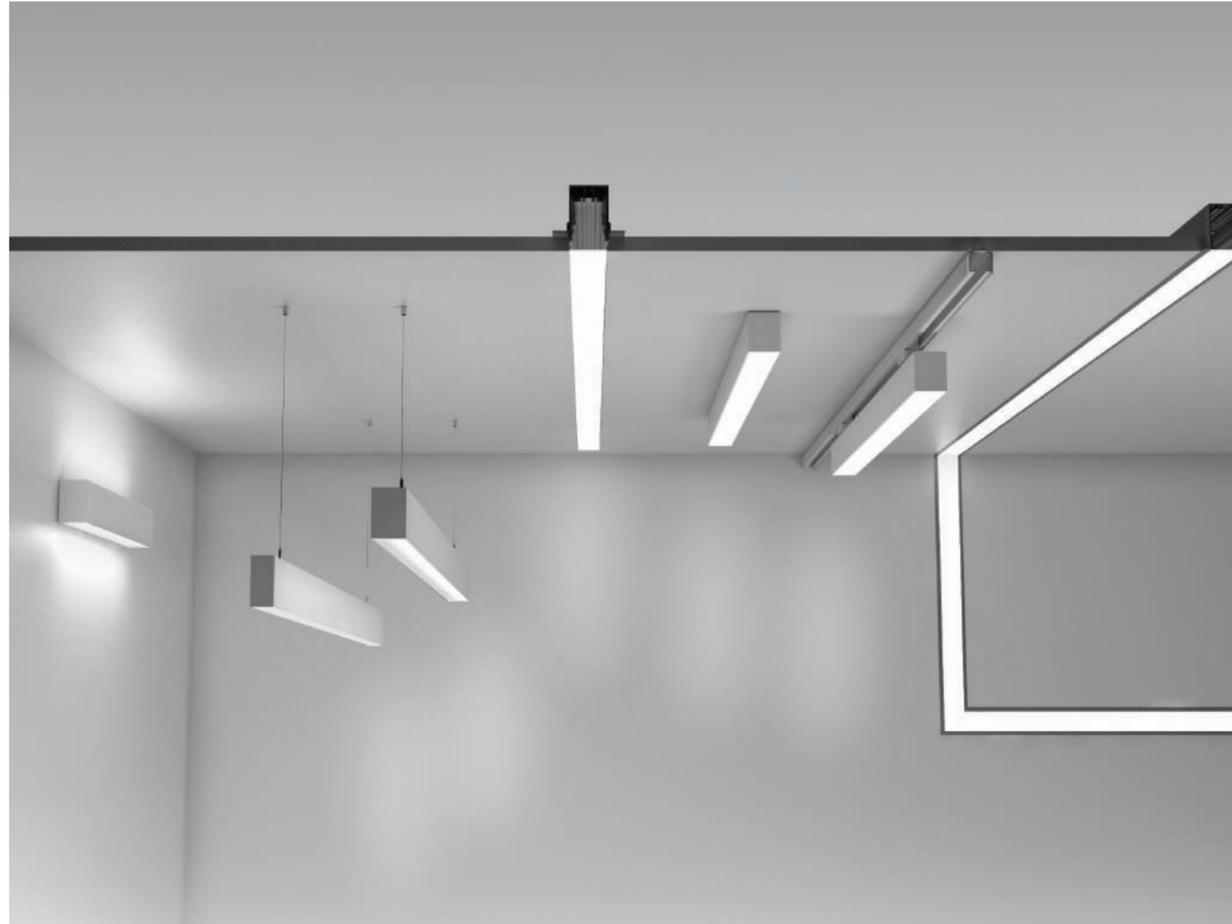

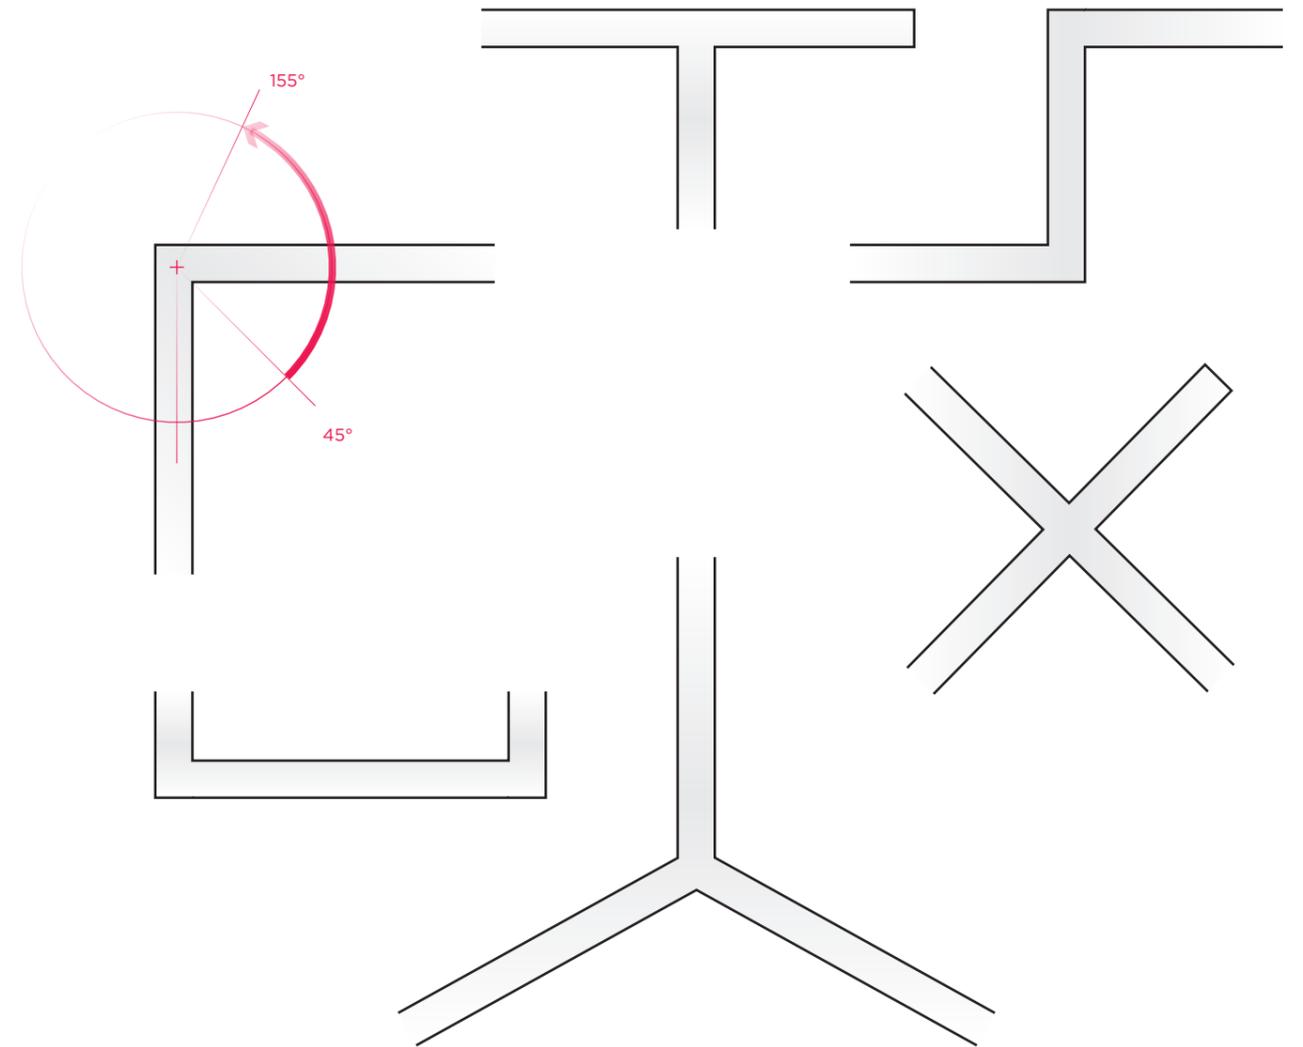

**Innovative concept:**  
**Quick connection system**

- easy on-site assembly
- faster production times
- no light-leakage

## Connection units to configure continuous light-lines

Separate units can be connected together in continuous light-lines. Completely illuminated corners, available in a range of standard degree angles (45°, 60°, 90°, 120°, 135°) or customized down to 1°, and connection units in different shapes (X, T, Y, Z, U), form customized lines to adapt the lighting to your architecture.

**Modular optic**  
(30°, 45°, 60°)

Aesthetic appeal. Low glare. White and narrow light distribution.

**Opal optic**

High-quality PMMA diffuser for uniform light distribution.

Filler (blank section)

**Office optic**

- Suitable for VDU workstations according to EN 12464-1: up to 3300 lm/m with  $< 3000 \text{ cd/m}^2$  for beam angle  $> 65^\circ$
- UGR  $< 19$  / UGR  $< 16$

## ILO system combinations

The modularity of the profile system enables you to combine different optics and adopt the lighting fixture to the interior.

**Prismatic optic (new U-PR optic)**

Its unique glare control performance is achieved through a combination of extruded profile geometries and precise microstructures embossed directly into the optic cover. The new prismatic cover stands out with its transparent appearance of the precision microstructure, as well as with the resulting highest possible efficiency and photometric functionality for glare-reduction-critical applications. The complex approach of inserting microstructured products (foils/sheets) for light control has now been replaced by a single product. Based on Jungbecker hot embossing production technology.

## New office optic

The purpose of the new optic is to provide the best visual comfort for office environments that include workstations, reception desks, conference rooms and other similar applications. Its specifically designed precise lenses combined with a reflector body deliver high performance, low UGR and high-quality illumination.

**Features**

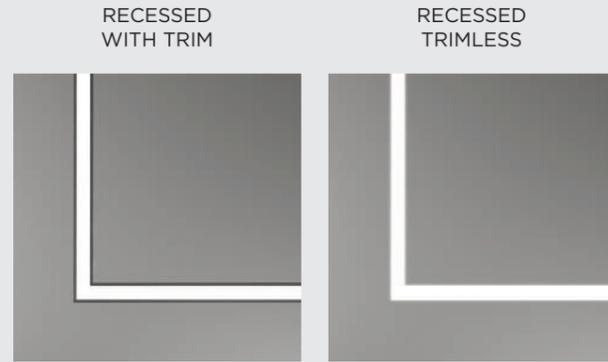

- 2700 / 3000 / 4000 / 5000 K or TW 2700 to 5000 K
- CRI > 80 / CRI > 90 / CRI > 95
- MacAdam Step 3
- L80 B20 at 100.000 h, Ta=25 °C ambient temperature
- Standard suspension kit: 2 m
- Standard power cable: 2 m
- Up to 2800 mm in a single unit, adaptation of length down to +/- 70 mm

**Options**

- Emergency: 1 h or 3 h
- Through wiring
- Presence and light sensor
- ILO spectra (CRI > 95)

ORA

## Curved-edge linear profile

Elegant with its oval housing, ORA is a fresh new lighting solution when projecting the interior of an office or any public building. Its high-quality housing in a powder coated finish makes it a bold and stylish luminaire, available with various optics solutions: reflector (modular), opal, prismatic, office or asymmetric optic; and up and downlight possibilities. Used as an individual profile or put together in continuous lines.

5000 K, CRI > 95	Cool white	C
2700 K - 5000 K, CRI > 95	Sunlike TW*	S

\* Sunlike and TW not available for asymmetric and modular optics

**Features**

- 2700 / 3000 / 4000 / 5000 K or TW 2700 to 5000 K
- CRI > 80 / CRI > 90 / CRI > 95
- MacAdam Step 3
- L80 B20 at 100.000 h, Ta=25 °C ambient temperature
- Standard suspension kit: 2 m
- Standard power cable: 2 m
- Up to 2800 mm in a single unit, adaptation of length down to +/- 70 mm

**Options**

- Emergency: 1 h or 3 h\*
- ORA Spectra (CRI > 95)
- Presence and light sensor

\* available for dimensions longer than 1266 mm

# PLAIN

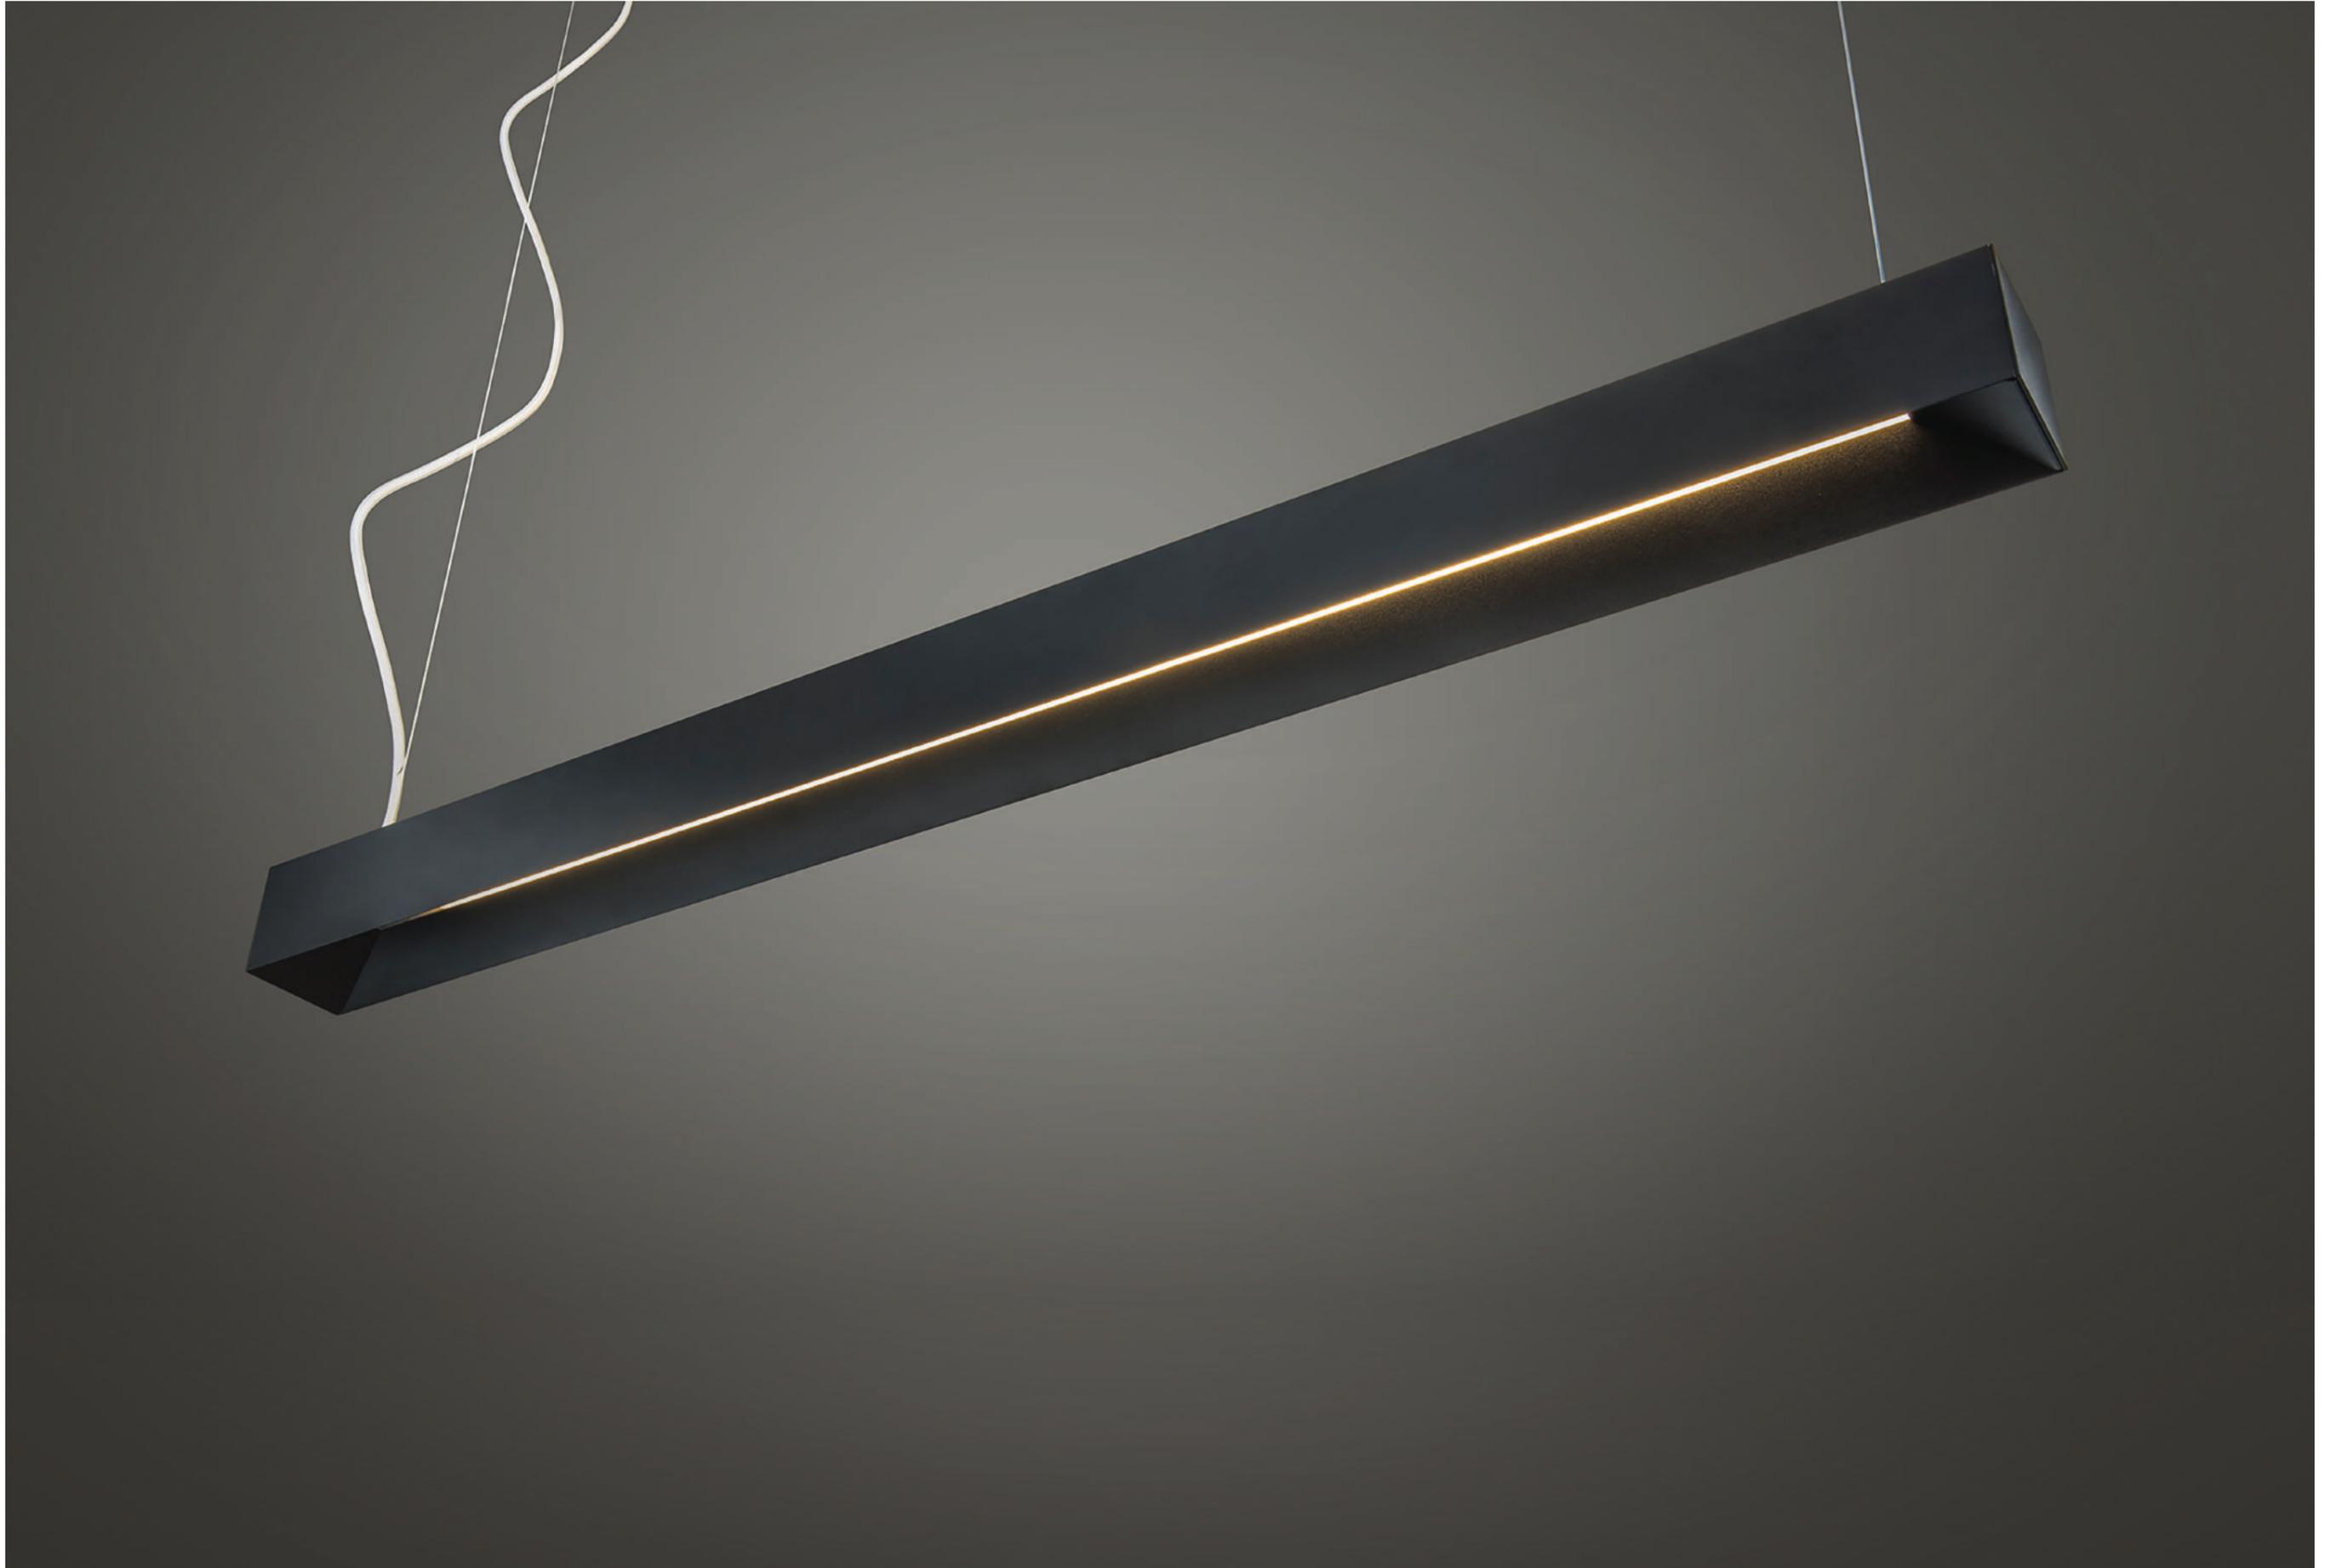

Elegance of simplicity,  
efficiency of LED  
technology.

Ideal for offices.

The elegant product from our family range is now available in different lengths, starting from 752mm and reaching up to 2852mm in single piece. Separate units can be also connected together to form longer systems. The product was additionally extended with various optic types, which can be used according to your preferences and your needs. You can choose between opal, prismatic, modular wide/narrow and office optic.

**Product model:** KYRA

**Mounting type:** Pendant

**Optic:** Opal

**Length:** 1266 mm

**Power:** HE

**Color temperature:** 4000 K, CRI > 80

**Control type:** DALI

**Color:** White

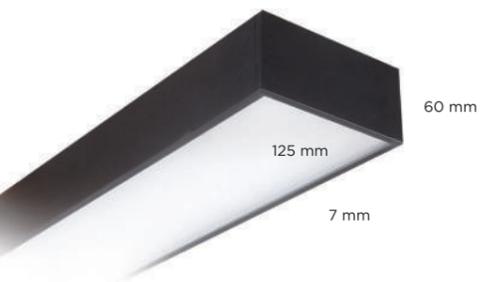

**Features**

- 2700 / 3000 / 4000 / 5000 K or TW 2700 to 5000 K
- CRI > 80 / CRI > 90 / CRI > 95
- MacAdam Step 3
- UGR < 16
- L80 B20 at 100.000 h, Ta=25 °C ambient temperature
- Standard suspension kit: 2 m
- Standard power cable: 2 m

**Options**

- Light and presence sensor
- KYRA Spectra (CRI > 95)
- EM 1 h or EM 3 h

# SHAPES<sup>ILO</sup>

Square, rectangular and hexagon pendant luminaires. Simple and contemporary.

Based on the design of ILO profiles, ILO Hexagon and ILO Quadro come in various sizes, optics options and up and down light. The geometrical shape adds playful feel to any architectural or office spaces. Being pre-assembled as one unit, an easy installation is guaranteed.

# HEXAGON<sup>ORA</sup>

Based on the design of ORA profiles, ORA Hexagon comes in various sizes, optics options and up and down light. Besides its geometrical shape, ORA Hexagon stands out with its curved-edge form. Being pre-assembled as one unit, an easy installation is guaranteed.

**Features**

- HE: 2000 lm/m; HO: 3000 lm/m
- 25-35 W/m
- 2700 / 3000 / 4000 / 5000 K or TW 2700 to 5000 K
- CRI > 80 / CRI > 90 / CRI > 95
- MacAdam Step 3
- L80 B20 at 100.000 h, Ta=25 °C ambient temperature
- Standard suspension kit: 2 m
- Standard power cable: 2 m

**Options**

NO DIM   
  SWITCH DIM   
  FLICKER FREE DIM   
  DALI 2 CH  
 CASAMBI

PENDANT      PENDANT DIRECT / INDIRECT

**size**

Ø 780 | 1200 | 1480 | 1760 mm

**dimensional sketch**

**housing colour**

High-quality aluminium with powder coated finish in RAL9016 white fine texture | RAL9005 black fine texture

**optics**

Minimalistic,  
yet impressive.

MINI ILO

With its aesthetic appeal, ILO Mini offers new application opportunities for a modern and sophisticated look for any type of environment, including offices, the private sector, hotels, restaurants, museums, corridors and other similar areas.

Thanks to its short lengths, it gives a minimalistic and elegant touch to ceilings. Specially developed and designed optical lenses deliver optimal wide (more general) or narrow (more concentrated) light distribution to adapt the lighting to specific needs, whether it is for basic illumination or to accentuate individual areas.

Ring-shaped luminaire

# IKAR

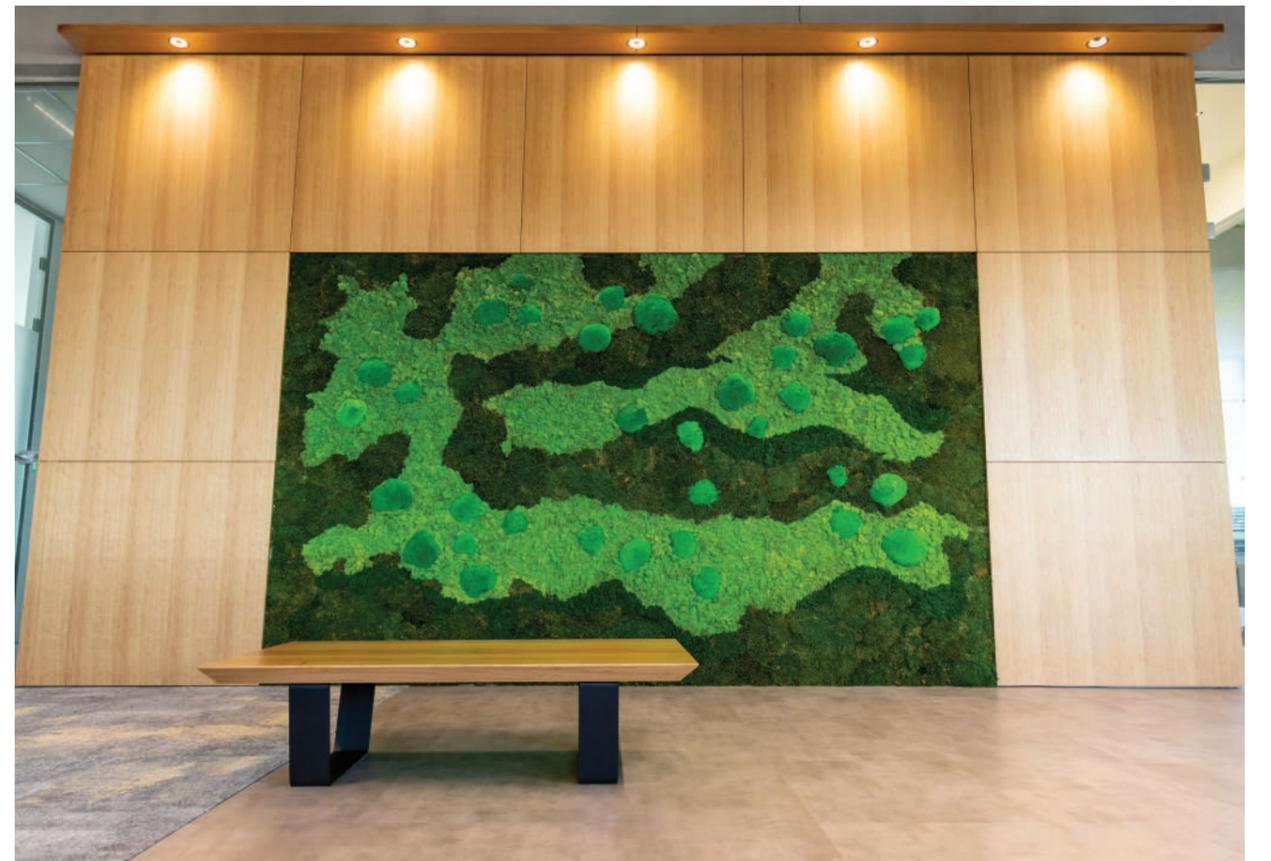

Characterized by a ring light, IKAR is a fascinating alternative to conventionally-shaped luminaires. The fully adjustable head can be freely rotated up to 360° as well as to a  $\pm 90^\circ$  direction for an optimum adaptation of light on different angles. Specially-designed optical lenses developed using innovative know-how in optical expertise deliver pleasant and directional light with low UGR and with hidden LED hot spots.

The registered luminaire design offers various mounting options (track, ceiling, recessed) and colour temperatures. Available in two sizes (65, 127mm), the IKAR family is the ultimate downlight solution for a wide range of applications, such as hospitality and receptions areas, corridors, foyers, and similar ambiances.

**Features**

- 2700 / 3000 / 4000 / 5000 K
- CRI > 80 / CRI > 90
- MacAdam Step 3
- L80 B20 at 100.000 h, Ta=25 °C ambient temperature

# APOLLO

With its wide area of illuminated circular surface and indirect lighting, the Apollo delivers homogeneous illumination and a pleasant atmosphere. Being available in various dimensions, it offers you several possibilities when applying the same luminaire's family within a project. The Apollo is a versatile solution for offices, lobbies, foyers, lounges, reception areas and other spacious ambiances, adding character and enhancing the room.

**Features**

- 2700 / 3000 / 4000 / 5000 K

From transparency  
to homogenous  
light.

EOS Circular is defined by a slim frame around a transparent panel which makes the luminaire an elegant and unobtrusive element in the room. When switched on, the luminaire changes its form and creates the perception of pleasant circular light hanging in the air.

# EOS CIRCULAR

darc awards  
ARCHITECTURAL  
SHORTLISTED

Slim design

### High quality lighting

A combination of pleasant and comfortable atmosphere from indirect lighting and the efficiency of direct lighting. Emitting light both up to the ceiling and down to the workspace, it diminishes glare and delivers a high level of visual comfort. Light intensity can be dimmed via the DALI.

#### Features

- 3500 - 10000 lm
- 39 - 140 W
- 2700 / 3000 / 4000 K
- CRI > 80 / CRI > 90
- MacAdam Step 3
- UGR < 19
- L80 B20 at 100.000 h, Ta=25 °C ambient temperature

#### Options

- Coloured detail in the housing in black, white or red

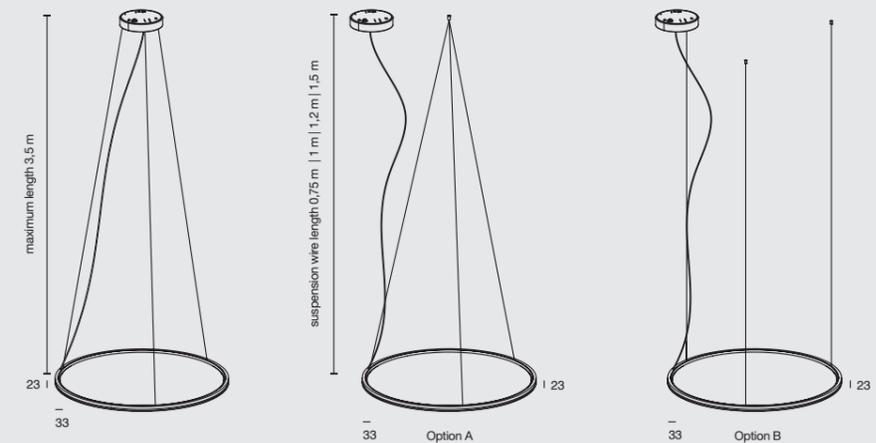

### PENDANT

#### size

Ø 470 | 560 | 650 | 740 | 825 | 1000 | 1200 | 1500 | 1800 | 2000 mm

#### suspension options

Standard suspension kit

Optional suspension kit A

Optional suspension kit B  
(more rosettes required for rings larger than 825 mm)

#### housing colour

● ● High-quality aluminium with powder coated finish in RAL9016 white fine texture | RAL9005 black fine texture

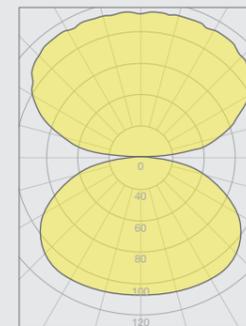

#### ring colour

● ● ● white | black | red

#### optics

Transparent high-quality PMMA prismatic sheet for better light distribution

comfort.

# EOS

The luminaire that makes your office a place of comfort and gives a stylish touch to your interior. Emitting light both up to the ceiling and down to the workspace, it supplies homogenous glare-free light and a maximum level of visual comfort. It is the perfect fixture for conference rooms, open offices, lobbies, and other environments where you want to make an impact.

Characterized by a slim frame around a transparent panel, the EOS Sky does not impose on the architecture of the room, but adds elegance. When switched on, it creates the perception of a pleasant homogenous light floating in the air. Lighting intensity can be dimmed via the DALI.

## Connectable

With the EOS System you can connect together two standard EOS luminaire modules (rectangular, curved) and create different lighting compositions and customized options: U-shape, circle, curved.

## Want a truly customized solution? Design your own module.

The idea behind the EOS System is in its flexibility. Using the basic building blocks, slim aluminium profile and a transparent panel that gets homogeneously lit when turned on, we can give you the freedom to design your own module and make the most of your environment.

# ARUN

## Light that supports performance and well-being

The ARUN LED recessed luminaire is an ACTIVE lighting solution producing biologically effective light. Thanks to the Tunable White option, it not only has a strong positive affect on the human biorhythm, health and sleeping quality, but also influences effectiveness and concentration at work. It is the perfect solution for places with suspended ceilings.

For suspended ceilings with grids

- Matches the most common sizes of ceiling tiles
- There is no extra cutting needed – just remove a tile and replace it with an ARUN light

# ALVA

## A premium lighting environment for sustainable offices

The ALVA represents a smart combination of design and technology achieving the best possible light quality even when illuminating the most demanding lighting areas. Its slim design makes it an ideal solution for tight ceiling conditions and the perfect option to expose the place's architecture. It can be the ultimate lighting solution for your offices.

For suspended ceilings with grids

- Matches the most common sizes of ceiling tiles
- There is no extra cutting needed – just remove a tile and replace it with an ARUN light

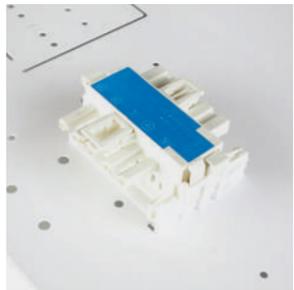

On request

Wieland plug

Wago winsta

Linect® plug system

Smooth transition of light

FMD difuser

Features

- 2700 / 3000 / 4000 / 5000 K
- CRI > 80 / CRI > 90
- MacAdam Step 3
- UGR < 19
- L80 B20 at 100.000 h, Ta=25 °C ambient temperature
- SMD LED > 160 lm/W

Options

- EM 1 h or EM 3 h
- SNSR: light and presence sensor unit with 6 predefined operating modes and tuning possibilities

# HYPERION ALU

Professional high-bay luminaire,  
the best choice for industry  
and sport

The HYPERION is a price-performance high-bay luminaire suitable for suspended or ceiling installations. It offers sustainable, high-efficient lighting for industrial plants, warehouses and sports areas. Different optics, housing sizes, light output options and many accessories for its easy and precise installation and save operation makes it a perfect choice for various specific applications.

**Case Study:**  
Sports Hall Slovenj Gradec

**energy savings** **56%**

**improved average illuminance** **41%**

**increased lifetime** **4x**

On request

**Installer friendly**  
Quick power connection on side or on top

**IP65 Protection Guarantee**  
GORE® vent pressure equalization

**Additional features**

- Power installation via quick connection
- Fast ceiling installation
- Silicon-sealed
- SMD LED > 160lm/W
- Electronic LED converter
- Safety glass-holder-25 to +50°C

**Features**

- 10600 - 44000 lm
- 3000 / 4000 / 5000 K
- CRI > 80 / CRI > 90
- MacAdam Step 3
- L80 B20 at 100.000 h, Ta=25 °C ambient temperature
- -25 to +50 °C

**Options**

- Through-wiring
- Ball-proof protection grid
- Mounting kit: ceiling mounting plate (ceiling version), 2-point chain suspension installation kit (pendant version)
- Tempered glass

### Accessory

### Easy Installation

Hyperion Alu mounting kit chain 2,5 m  
Order code:  
Single version: 2X 1MHYC01200  
Double/triple version: 2X 1MHYC01000

Hyperion Alu Ceiling mounting plate  
Order code:  
Double or triple version:  
1X 1MHY303A00

Option: through wiring

# HATOR

Durable and highly efficient  
moisture-proof luminaire

The HATOR represents a high quality, excellent energy efficient and maintenance free moisture-proof luminaire. Its robust housing makes it the best choice for many environments such as multi-story car parks, industrial plants, warehouses, storage and cold storage rooms, loading bays, corridors, agricultural buildings and other facilities with complex ambient conditions.

On request

**Installer friendly**  
Quick power connection on side or on top

**IP65 Protection Guarantee**  
GORE® vent pressure equalization

Anti-vandal Stainless Steel Clips

Remote Control  
UHS5 Hator Order code: 6998000110

EBMPIR-MB-DD PIR Presence Detector

**Features**

- 3000 / 4000 / 5000 K
- CRI > 80 / CRI > 90
- MacAdam Step 3
- L80 B20 at 100.000 h, Ta=25 °C ambient temperature
- Silicon gasket for temperature -25 to +35 °C

**Options**

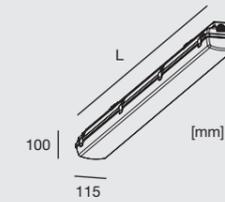

- EM 1 h
- Through-wiring 5 X 2.5 mm<sup>2</sup>
- Removable LED engine
- Automatic switch ON/OFF delay time based on the presence or light level
- Step-down illuminance function
- Adjustable maintained illuminance level
- Up to 10 luminaires per sensor (DALI)

**size**

1200x115 | 1500x115 mm

**dimensional sketch**

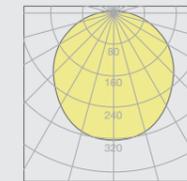

**housing**

Canopy: flame retardant glass-fiber reinforced polyester light grey RAL 7035  
Gasket: non-aging expanded polyurethane  
Gear tray: high quality sheet-steel powder coated white RAL 9003

**optics**

Opal PMMA with excellent light transmission and homogeneous light distribution

**light distribution**

Wall-mounted luminaire

Track system

**CRI** color rendering index; is a quantitative measure of the ability of a light source to reveal the colors of various objects faithfully in comparison with an ideal or natural light source.

European Conformity; compliance with the essential requirements of the relevant European health, safety and environmental protection legislation.

Protected against a solid object greater than 1mm such as a wire. Protected against water splashed from all directions. Limited ingress permitted.

**DALI** Digital Addressable Lighting Interface, a standardised communication interface to regulate lighting levels.

Luminaires suitable for mounting on normally combustible surfaces (ignition temperature at least 200°C) are marked with the 'F' symbol.

Jet-proof luminaires which are applicable where the surroundings are hosed down frequently by water jets, or where luminaires are applied in a dusty environment. Although the luminaires are not fully watertight, the potential ingress of moisture will not have any harmful effect on the luminaire function. IP 65 luminaires are often available in impact-protected versions. Dust tight. No ingress of dust. Two to eight hours. Protected against jets of water. Limited ingress permitted.

**D/I** Direct/Indirect light  
**DOP** Diamond prism + opal  
**DPR** Diamond prism  
**EM** Emergency unit  
**FMD** Fine prism + micro diffusion film  
**FO** Fixed output  
**FPR** Fine prism  
**HE** High efficiency  
**HO** High output  
**K** Kelvin  
**LCO** Length cutout  
**LP** Low power  
**MPR** Microprismatic  
**NERO** Nlack opal  
**OP** Opal  
**PS** Pull switch  
**PSD** Pull switch dim  
**TW** Tunable white

Protected against 0.2 joules impact. Equivalent to impact of 0.25kg mass dropped from 80 mm above impacted surface.

Protected against 20 joules impact. Equivalent to impact of 5kg mass dropped from 400 mm above impacted surface.

Luminaires which can be applied indoors only if no specific pollution rates are expected. Offices, dry, heated industrial halls, shops, shopping malls and theatres are typical application segments. Protected against a solid object greater than 12.5 mm such as a finger.
